| 1 Identification of the substance and of the | ne company/undertaking |
|--|--|
| Product name | Ikaros Parachute Rocket Red |
| Article Nos. | 340100, 340170, 340180 |
| Product use | Distress signal |
| Chemical name | 50 g of propellant composition, 6.5 g of black powder and 95 g of red illuminating composition |
| Document number | MSDS Red Parachute Rocket-01 |
| Company/Manufacturer | Hansson PyroTech AB |
| Company address | P O Box 51, SE-711 22 Lindesberg, Sweden |
| E-mail, internet | per.alenfelt@hansson-pyrotech.com, www.hansson-pyrotech.com |
| Telephone number | +46 581 872 50 |
| Telefax number | +46 581 872 51 |
| Emergency telephone number | +46 19 32 43 25 |
| Contact person | Ask for officer on duty at Nammo LIAB AB |
| | |
| 2 Hazard identification | |
| Main health hazard | Hazards refer to contents of rocket |
| Inhalation | May be mildly irritating to respiratory system |

| Skin contact | May be mildly irritating to skin. Contact with exhaust flame or burning flare can cause severe burns |
|----------------------------|--|
| Eye contact | Irritating to eyes |
| Ingestion | Harmful if swallowed |
| Fire and explosive hazards | Risk of explosion by shock, friction, fire or other sources of ignition. |
| Environmental hazards | Not classified as hazardous to the environment |

3 Composition/Information on ingredients

| Substances | CAS No. | EC No. | % | Gram | Symbol & Risk phrases |
|-----------------------|------------|-----------|-------|------|-----------------------|
| Strontium nitrate | 10042-76-9 | 233-131-9 | 31.35 | 47.5 | O, Xn: R8-22-36 |
| Potassium perchlorate | 7778-74-7 | 231-912-9 | 24.09 | 36.5 | O, Xn: R9-22 |
| Magnesium powder | 7439-95-4 | 231-104-6 | 18.81 | 28.5 | F: R15-17 |
| Potassium nitrate | 7757-79-1 | 231-818-8 | 3.17 | 4.8 | O, N: R8-50 |
| Linseed oil | 8001-26-1 | 232-278-6 | 1.25 | 1.9 | F: R17 |
| Sulphur | 7704-34-9 | 231-722-6 | 0.46 | 0.7 | Xi: R36/37/38 52/53 |

| 4 First-aid measures | |
|--|---|
| After inhalation | Move patient to fresh air. |
| After skin contact | If burned, wash with plenty of water for at least 20 min. |
| After eye contact | Keep eyelids apart. Wash with a lot of water. If needed visit physician. |
| After ingestion | Contact a physician. |
| 5 - Fine fielding measures | |
| 5 Fire-fighting measures | |
| Extinguishing media | |
| - Suitable extinguishing media | Use any fire extinguishing media at early stages of fire. Once the product has ignited it cannot be extinguished. |
| - Extinguishing media no to be used | No restriction. |
| Special exposure hazard arising | Product is explosive, evolving large quantities of gases and emitting large quantities of heat radiation if involved in fire. |
| Special protective equipment for fire-fighters | Normal equipment. |
| 6 Accidental release measures | |
| Personal precautions | Normal industrial hygiene, use protective gloves. |
| Environmental precautions | Do not let waste reach drains, sewers and bodies of water or leak into ground. |
| Methods for cleaning up | Collect using non-sparking tools, reuse if undamaged. Otherwise, keep for disposal by experts. See also Section 13. |
| 7 Handling and storage | |
| Handling | Avoid dropping the signal on hard surfaces. |
| Storage | Temperature should not exceed +75° C |
| 8 Personal protection/Exposure controls | |
| Engineering measures | No fire, sparks or welding close to the items. If cleaning up spillage, use tools which can not strike sparks. |
| Personal protective equipment | Normally none needed. But in case of spillage: |
| - Respiratory protection | In case of dust use particle filter mask such as EN143 Type P or EN149 Type FFP-S. |
| - Hand protection | Leather or similar protective gloves. |
| - Eye protection | Shatter-proof glasses or goggles. |
| - Skin protection | Normal industrial hygiene |
| Specific hygiene measures | No smoking. |
| Further information | Always check applicability with your supplier of protective equipment. |

| 9 Physical and chemical properties | |
|------------------------------------|---|
| Appearance | Plastic tube with plastic lids |
| Colour | Dark red tube, red lids and orange label |
| Odour | None |
| Autoignition temperature (°C) | > 250 |
| Explosion properties | Intrinsically explosive. Contains rocket motor and very hot and intense burning red flare. |
| Solubility in water | Insoluble |
| Other data | Contents have oxidising properties |
| 10 Stability and reactivity | |
| Conditions to avoid | High temperatures, above 75 °C |
| Materials to avoid | Not applicable. |
| Hazardous decomposition products | Product is explosive, evolving large quantities of gases and emitting large quantities of heat radiation if involved in fire. |

Other information

| 11 Toxicological information | |
|------------------------------|--|
| LD ₅₀ oral rat | No test data on product. |
| Hazardous ingredients | Potassium perchlorate, Strontium nitrate, and Sulphur. |
| Immediate health effects | Harmful if swallowed. Irritating to eyes. Minor ingredient irritating to skin and respiratory tract. |
| Delayed health effects | No deleterious effects known. |
| Acute toxicity | No deleterious effects known. |
| Chronic toxicity (long-term) | No deleterious effects known. |
| Carcinogenicity | No deleterious effects known. |
| Mutagenicity | No deleterious effects known. |
| Reproductive toxicity | No deleterious effects known. |
| Inhalation | Powders may be mildly irritating to the respiratory tract. |
| Skin | Powders may be mildly irritating to the skin. |
| Eye | Powders can be irritating to the eyes |
| Ingestion | May cause gastric irritation, nausea and vomiting. |

Based on EU Regulation 1907/2006

The current Material Safety Data Sheet was defined by Hansson PyroTech AB on the basis of knowledge of the product at the date of issue.

Therefore, data provided in this form can not be considered as exhaustive.

It is the duty of the operator

- to develop under his own responsibility, the safety dispositions regarding the operation of the product taking into account the data from this form
- to pass to all users and operators the appropriate safety data and warning regarding the risks mentioned in the documentation relative to the utilisation of the product
- to be cautious of possible risks faced when the product is used for other utilisation than those for which it has been designed

| 5 Fire-fighting measures | |
| Extinguishing media | |
| | Use any first anti-activity models at early stores of first Orace the analysis |
| - Suitable extinguishing media | Use any fire extinguishing media at early stages of fire. Once the product has ignited it cannot be extinguished. |
| - Extinguishing media no to be used | No restriction. |
| Special exposure hazard arising | Product is explosive, evolving large quantities of gases and emitting large quantities of heat radiation if involved in fire. |
| Special protective equipment for fire-fighters | Normal equipment. |
| | |
| 6 Accidental release measures | |
| Personal precautions | Normal industrial hygiene, use protective gloves. |
| Environmental precautions | Do not let waste reach drains, sewers and bodies of water or leak into ground. |
| Methods for cleaning up | Collect using non-sparking tools, reuse if undamaged. Otherwise, keep for disposal by experts. See also Section 13. |
| 7 Handling and storage | |
| Handling | Avoid dropping the signal on hard surfaces. |
| Storage | Temperature should not exceed +75° C |
| 8 Personal protection/Exposure controls | |
| Engineering measures | No fire, sparks or welding close to the items. If cleaning up spillage, use tools which can not strike sparks. |
| Personal protective equipment | Normally none needed. But in case of spillage: |
| - Respiratory protection | In case of dust use particle filter mask such as EN143 Type P or EN149 Type FFP-S. |
| - Hand protection | Leather or similar protective gloves. |
| - Eye protection | Shatter-proof glasses or goggles. |
| - Skin protection | Normal industrial hygiene |
| Specific hygiene measures | No smoking. |
| Further information | Always check applicability with your supplier of protective equipment. |

Based on EU Regulation 1907/2006

The current Material Safety Data Sheet was defined by Hansson PyroTech AB on the basis of knowledge of the product at the date of issue.

Therefore, data provided in this form can not be considered as exhaustive.

It is the duty of the operator

- to develop under his own responsibility, the safety dispositions regarding the operation of the product taking into account the data from this form
- to pass to all users and operators the appropriate safety data and warning regarding the risks mentioned in the documentation relative to the utilisation of the product
- to be cautious of possible risks faced when the product is used for other utilisation than those for which it has been designed

| 4 First-aid measures | |
|--|--|
| After inhalation | Move patient to fresh air. |
| After skin contact | If burned, wash with plenty of water for at least 20 min. |
| After eye contact | Keep eyelids apart. Wash with a lot of water. If needed visit physician. |
| After ingestion | Contact a physician. |
| 5 Fire-fighting measures | |
| Extinguishing media | |
| | Use any first articleuishing medie at early stores of first. Once the meduat |
| - Suitable extinguishing media | Use any fire extinguishing media at early stages of fire. Once the product has ignited it cannot be extinguished. |
| - Extinguishing media no to be used | No restriction. |
| Special exposure hazard arising | Product is explosive, evolving large quantities of gases and orange coloured smoke if involved in fire. |
| Special protective equipment for fire-fighters | Normal equipment. |
| | |
| 6 Accidental release measures | |
| Personal precautions | Normal industrial hygiene, use protective gloves. |
| Environmental precautions | Do not let waste reach drains, sewers and bodies of water or leak into ground. |
| Methods for cleaning up | Collect using non-sparking tools, reuse if undamaged, otherwise keep for disposal by experts. See also Section 13. |
| 7 Handling and storage | |
| Handling | Avoid dropping the signal on hard surfaces. |
| Storage | Temperature should not exceed +75° C |
| 8 Personal protection/Exposure controls | |
| Engineering measures | No fire, sparks or welding close to the items. If cleaning up spillage, use tools which can not strike sparks. |
| Personal protective equipment | Normally none needed. But in case of spillage: |
| - Respiratory protection | In case of dust use particle filter mask such as EN143 Type P or EN149 Type FFP-S. |
| - Hand protection | Leather or similar protective gloves. |
| - Eye protection | Shatter-proof glasses or goggles. |
| - Skin protection | Normal industrial hygiene |
| Specific hygiene measures | No smoking. |
| Further information | Always check applicability with your supplier of protective equipment. |
| | |
